You always knew how to make me cry
And I always gave to you all the reasons why

Give it to me one more time
Said, I believe in this LITTLE LIE

Sometimes you need a little sugar
Just to get on by
You know it ain't lastin' to long
But please good God
Gonna give me that high

Give it to me one more time
Said, I believe in this LITTLE LIE

Oh it's just a LITTLE LIE
You will survive
Oh it's just a LITTLE LIE
You know you will survive

Well you wear that armor so well
Good Lord see how it does shine
And you feel mighty proud
When all the colors stay inside those lines
But if you don't get messy real quick
I'm afraid something's gonna die
Cause baby there's a lot of magic
Buried inside those blue eyes
